INTRODUCTION

When you choose Repsol Lubricants, you get more than what you pay for. In addition to a product of the highest quality, you also get the Repsol guarantee: an integrated global energy company that carries out exploration, production, refining, distribution, and marketing activities in more than 90 countries. It provides millions of people and companies all across the world with the most efficient, responsible and innovative energy solutions.

You also choose maximum innovation because Repsol has a Technology Centre at the global forefront of R&D&I, where our technicians and researchers are continuously improving each product to ensure maximum efficiency and the highest level of technical and environmental quality.

In line with our philosophy of constant innovation and improvement, we have expanded our product range and are pleased to present our latest catalogue of Lubricants for Passenger cars.

MAXIMUM QUALITY

Repsol Lubricants exceed quality standards and industry norms; our products have been tested in competitions to guarantee maximum efficiency.

Our lubricants improve the durability of engines and exhaust gas after-treatment systems, complying with sector regulations. Apart from offering superior protection for the most demanding engines, the lubricant also guarantees fuel economy and reduces CO^2 emissions in the most advanced engines.

At Repsol, we evaluate and select the most appropriate base oils, that coupled with the use of the highest quality additives offer you products with specific formulations for each manufacturer that give you extra confidence in your engine.

Our expanded product range caters to every need, offering drivers lubricants that have been approved and recognized by all car manufacturers.

NEW ACTION SERIES

We are pleased to introduce a new product range, specially formulated to offer maximum value, with formulas adapted to suit the needs of passenger cars, particularly in the South-East Asia region. In addition, new, streamlined, range architecture, with matching label design and bottle color, for an easier lubricant selection.

Choose the ideal product according to your needs:

GXR EURO/Platinum: Fully Synthetic engine oil, designed for maximum durability, meeting the latest API or ACEA quality standards.

GXR Plus: Semi Synthetic engine oil, designed with engine protection and cleanliness as the main goal.

GXR 7, 6, 5, 4, 3: Mineral-based engine oil, specially formulated for a wide range of engines. Check each product's page to find out more.

NEW FORMULA

All Action series engine oils are designed with:

XR TECH

By formulating our products using carefully selected chemicals and **hydrotreated** base oils, we optimize the lubricant s performance in 3 key areas:

Wear protection: XR Tech is reinforced anti-wear chemistry designed to reduce wear in all the critical areas in the engine. A protective oil film is generated between metal parts to prevent rubbing, thus improving performance and reducing the metallic wear under different engine operating conditions. Up to 30% less wear in cylinder liner found in Mack T-10 bench test.

Engine Cleanliness: XR Tech uses dispersant additives that keep soot particles in suspension and control sludge build-up, thus preventing blockage in engine parts with tighter tolerances. This way, it manages to enhance the performance of the oil during the drain interval, effectively extending the lubricant's life so it can protect the engine better and for a longer time.

Oil durability: XR Tech uses highly refined base oils combined with carefully selected additives, which results in lubricants with improved oxidation control. An engine oil more resistant against oxidation maintains its properties for a more extended period of time and thus ensures optimum protection during the whole drain interval.

PRODUCT LINE UP

			Viscosity	Quality levels
	GXR EURO	Fully Synthetic	5W-40	API SN/CF, ACEA C3
	GXR PLATINUM		0W-20, 0W-30, 5W-30, and 5W-40, 10W-40	API SP
	GXR GREEN		0W-20	API SN, ILSAC GF-6A
	GXR Plus	Semi Synthetic	10W-30	API SP, ILSAC GF-6A
			10W-40	API SP
	GXR GREEN		5W-30	API SN, ILSAC GF-6A
	GXR 7	Mineral	10W-30	API SN, ILSAC GF-5
			10W-40, 15W-40, 20W-50	API SN
	GXR 5		10W-40, 15W-40, 20W-50	API SL/CF
	GXR 3		20W-50	API SG/CD

GXR EURO

FULLY SYNTHETIC

5W-40

Repsol GXR Euro is a fully synthetic lubricant specially designed for vehicles with exhaust fume processing systems. It is carefully formulated to meet low ash content (Mid SAPS). This makes it suitable to use the latest technologies for current engines and protects the environment by reducing harmful particle emissions to a minimum. Furthermore, its fully synthetic nature and outstanding antioxidant capability enable the lubricant to perform exceedingly well at extended drain intervals.

API SN/CF, ACEA C3

GXR PLATINUM

FULLY SYNTHETIC

0W-20, 0W-30, 5W-30, 5W-40, and 10W-40

Repsol GXR Platinum is a fully synthetic lubricant oil meeting API SP and ILSAC GF-6A quality levels. A high-performing product designed to maximize the protection of the engine while achieving high efficiency at the same time. Thanks to its carefully selected additives and its low viscosity, this lubricant reduces the friction losses in the engine, achieving a fuel economy higher than 2,6% (according to the VID ASTM D7589 sequence test).

API SP

GXR GREEN

FULLY SYNTHETIC

0W-20

Repsol GXR GREEN 0W20 is a fully synthetic lubricant oil with API SN and ILSAC GF-5 quality levels. A high-performance product designed to offer the best protection for engines and a good start and stop driving, especially in urban areas due to its high viscosity index. The Green series is a cost-effective, fuel-economical, high-quality oil that meets and exceeds American and Asian lubricant quality standards.

API SN, ILSAC GF-6A

GXR Plus
SEMI SYNTHETIC
10W-30, 5W-30

Repsol GXR Plus is a multi-grade semi-synthetic-based lubricant that is widely recommended for use in modern passenger car engines due to its advanced set of additives. Its balanced and robust formulation meets and exceeds the API SP standards, protecting the engine against wear and rust. Due to its high TBN level, it can be used with high Sulphur fuels, neutralizing the acids in the combustion chamber. Several viscosities are considered to cover most engines requirement. It provides good cold start performance and also protects the engine even in the harshest environment.

API SP, ILSAC GF-6A

GXR Plus
SEMI SYNTHETIC
10W-40

Repsol GXR Plus is a multi-grade semi-synthetic-based lubricant that is widely recommended for use in modern passenger car engines due to its advanced set of additives. Its balanced and robust formulation meets and exceeds the API SP standards, protecting the engine against wear and rust. Due to its high TBN level, it can be used with high Sulphur fuels, neutralizing the acids in the combustion chamber. It provides good cold start performance and also protects the engine even in the harshest environment.

API SP

GXR GREEN
SEMI SYNTHETIC
5W-30

Repsol GXR GREEN 5W30 is a multi-grade semi-synthetic lubricant that is widely recommended for use in modern passenger car engines. Its balanced and robust formulation meets and exceeds the API SN standards, protecting the engine against wear and rust. Due to its high TBN level, it can be used with high Sulphur fuels. It provides good cold start performance and protects the engine even in the harshest environment. It is a a cost-effective, high-quality oil that meets and exceeds American and Asian lubricant quality standards.

API SN, ILSAC GF-6A

GXR 7
MINERAL
10W-30

Repsol GXR 7 is a multi-grade lubricant formulated with high-performance additive technology. It is designed to exceed the highest quality standards available in the market. This product keeps engines clean and protected. Its highly refined base stocks combined with antioxidant additives increase oil drain intervals, provide better lubricity, and enhance engine cleanliness. As a result, this product is highly suitable for gasoline engines with the most stringent quality standards.

API SN, ILSAC GF-5

GXR 7
MINERAL
10W-40, 15W-40, and 20W-50

Repsol GXR 7 is a multi-grade lubricant formulated with high-performance additive technology. It is designed to exceed the highest quality standards available in the market. This product keeps engines clean and protected. Its highly refined base stocks combined with antioxidant additives increase oil drain intervals, provide better lubricity, and enhance engine cleanliness. As a result, this product is highly suitable for gasoline engines with the most stringent quality standards.

API SN

GXR 5

MINERAL

10W-40, 15W-40, and 20W-50

Repsol GXR 5 is a mineral-based lubricant that protects petrol and light diesel vehicles engines, offering reliable performance even in the harshest environments. It is a multigrade lubricant specifically developed to meet and exceed industry standards. Its high viscosity guarantees lubricity in the hottest climates and improves the output power and the sealing effect in the combustion chamber.

API SL/CF

GXR 3

MINERAL

20W-50

REPSOL GXR 3 is a quality multi-grade lubricant oil formulated with mineral base oils for a wide range of usage. It is recommended for both gasoline and diesel engines. It can be used for both passenger cars and industrial vehicles. It is ideal for urban services and public works with standard oil changes intervals. It is notable for its very low consumption and good protection at elevated temperatures.

API SG/CD

FIND THE BEST LUBRICANT FOR YOUR CAR

Use the **REPSOL LUBRICANT SEARCH ENGINE** and find the perfect lubricant for your vehicle.

You can search by **brand**, **model**, or **version**.
